Unacceptable Items

Single-stream recycling is a process by which materials are collected and-mixed together for processing at a Materials Recovery Facility (MRF). This is for SECORA's drop-off centers only. If someone picks up your trash and recycling, ask them for their specific rules and methods for recycling.

While it may be frustrating that some of the items you may have such as 5-gallon buckets and other materials may have a recycling symbol on them, or you know that they are made of materials that can be recycled like aluminum siding, we can ONLY accept items that are on our "included" list on the reverse side. Our recycler is only set up to process the materials of the size and shape of those indicated.
